**INTELICOAT TECHNOLOGIES® INTRODUCES STICK 2™ REPOSITIONABLE  
POLYPROPYLENE BANNER BY MAGIC® BRAND**

**SOUTH HADLEY, October 7, 2009** – InteliCoat Technologies®, a world leader in the manufacture of coated paper, film, and specialty substrates for digital imaging applications, today introduced STICK 2™ by Magic® Brand, a 7 mil polypropylene banner with a low tack, pressure sensitive adhesive at the 2009 SGIA Expo. A low cost adhesive-backed media, the versatile STICK 2 can be used indoors or outdoors for both short and long-term signage applications.

“We are pleased to welcome STICK 2 to our wide variety of solutions for pressure sensitive applications,” said Jennifer Chagnon, product manager at InteliCoat Technologies. “By utilizing STICK 2, print providers can achieve significant time and cost savings by gaining the ability to just print, peel and stick. Since STICK 2 is repositionable, removable, and may be reapplied to some surfaces, it is the perfect solution for everything from window displays to tradeshow media to kiosk displays.”

STICK 2 features a universal coating that is compatible with most water-based thermal and piezo, as well as solvent and eco-solvent wide format printers. A matte finish, polypropylene with a low-tack, pressure sensitive adhesive, STICK 2 is ideal for creating one of a kind personalized posters, retail displays, window displays and residential graphics.

**STICK 2 is now available in the following sizes:**

<b>STICK 2 by Magic® Brand</b> 7 MIL REPOSITIONABLE POLYPROPYLENE		
Size	Part Number	Trade Price

36" X 10'	70812	\$21.09
36" X 100'	70813	\$210.94
