

INTELICOAT TECHNOLOGIES – SOUTH HADLEY
ENVIRONMENTAL POLICY

Intelicoat Technologies, South Hadley designs and manufactures specialty-coated materials by applying either solvent based or water-based coatings onto films, papers, canvas, or other substrates. In the coating of these materials, Intelicoat has recognized the significant environmental impacts to be in air emissions and waste generation.

Intelicoat is committed to the continual improvement of its environmental performance and environmental management system, including the pursuit of source reduction and pollution prevention opportunities. Intelicoat Technologies is committed to complying with all applicable environmental legal and other requirements. Intelicoat Technologies routinely evaluates its environmental aspects and impacts to establish and pursue improvement objectives and targets.

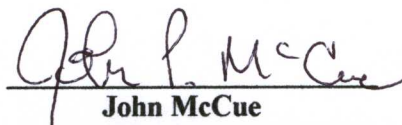

This environmental policy is communicated to all Intelicoat Technologies employees, persons working on behalf of the company, and is available to the public.
