

# When It Comes To Making Ink Jet Prototypes... Magic<sup>®</sup> PTransfer Is One-Of-A-Kind.

*Package Prototyping Is Made Fast and Easy Using  
Magic PTransfer Ink Jet Media.*

**From design to prototype without smudging, cracking or adhesives.**

**1.** Finalize the package design at your workstation

**2.** Mirror-print the image on your ink jet printer

**3.** Line up the image with the box blank or board

**4.** Pass it through the laminator

**5.** Trim away the excess

**6.** Remove the release liner

**7.** Fold and affix the tabs to finish the prototype

**8.** Prototypes with a finished production look and feel
